

Seitz LLC Has Job Openings

Due to the current COVID situation, in our support of our medical customers, we are seeing a surge in demand.

While we are mainly looking for long-term employees, this might also be a great option for anyone recently furloughed or otherwise out of work due to COVID closures in the restaurant or other non-essential business arena.

Since our surge might be temporary, this could be good for someone looking for work until called back. We will 100% honor a “return to home company” policy for any local companies that have furloughed people and see this as a way to support their employees in a time of need.

The work is light assembly and manufacturing; no prior experience is required; Must be 18 years of age or older. b

We are looking for people interested in committing to full-time (preferably; will consider part time) work for our off shifts (2nd is 3 pm - 11:30 pm and 3rd is 11 pm -7:30 am).

These roles might be also good for any college students that are now home.

Interested parties should contact Human_Resources@seitzcorp.com
