

Is your company INCREASING AUTOMATION?

The North-West Community College's new, PORTABLE MECHATRONICS LAB TRAINING PROGRAM can both expose employees unfamiliar with this fast growing industry and upskill those that do! It's Manufacturing 4.0!

Our **FESTO**
approved curriculum includes modules in:

- "Pick and Place" Sequencing
- Pneumatics
- Electronics
- Sensors
- Transducers
- Solenoids
- Motors
- Switches
- Relays
- Stacking Magazine stations and more

This entire training is portable and can be delivered WHEN and WHERE you want it! Custom content and scheduling. Hold the training at your local Community College campus or safely at your own facility.

The possibilities are limitless.
Contact Gary Carra at 860.253.3128
or gcarra@asnuntuck.edu
to design the perfect program for
your workforce today.

**Earn a Certificate in Mechatronics/Automation
upon successful completion!**
